The celebration of the golden wedding of Mr. and Mrs. G. B. Brice, at Ambier near Bellaire, yesterday, was the occa-sion of quite a gathering of relatives, neighbors and friends of the aged uple, who are seventy-six and seventy-two years, respectively. It was also the birthday of Mrs. Brice, and the oc casion was one of those rare events where full application is unknown except to those present. Capt. Sylvester Brice, of Wheeling, and Dr. Robert Brice, of Iowa, and Mr. Henry Fish, all made brief talks, recounting some of the changes in the past half century and telling some of the amusing events that occurred during the early life of the aged couple. Ten children were born to them, all girls, six of whom were with their parents yesterday, four of them with their husbands and familles, while the other two remain at home with the old folks.

The reception at the Fort Henry club was one of the most brilliant of the evening functions. The hours were from 8 to 12 o'clock, during which the paintial club house, at the corner of Chaptine and Fourteenth streets, was frequented by almost the entire membership with their friends. The building was ablaze with light and it was tastefully embellished with floral adornments. A pleasing programme of music was discoursed throughout the affair by the Waldo Mandolin Club, and in the private dining room light re-freshments were served. In keeping with the old Virginia custom the punch bowl occupied a position in the main hall. Among those attending the re-ception were the following:

The answer of First Vice President Frank J. The meeting has not yet been offi-cially called, owing to the absence from the ciry of President Quarrier, of the chamber of commerce, but it is stated it will be held Thursday or Friday of this week, or early next week. Colone Hearne, who is in Birmingham, Ala. where his company has a branch, is to be in Wheeling before the close of the

A fair-sized audience in the afternoon, and a larger one at night, greeted the young Hermann, master of magic, at the Opera House on New Year's day, and to say that the performance pleased is putting it mildly. Hermann sizes up with his remarkable and now deceased uncle and clearly outclasses any other magician seen in Wheeling in late years. The Luciers, musical specialists, were a pleasing side attraction, and the blind Lucier, on the corner, scored a decided hit.

"Make Way for the Ladies."
One of the most recent successes in New York has been the roaring farce, "Make Way for the Ladies," adapted from the French of Hennequin and Valabreque, produced early in the season at the Madison Square Theatre. It will be brought here to the Opera House next Friday night. January 5, with precisely the same cast and accessories as in New York. The company is headed by E. M. Holland and Fritz Williams. The plot of the play pany is needed by 5. 3. Advision and Fritz Williams. The plot of the play turns upon the efforts of advancing wo-men to win success in the legal profes-sion and in pictorial art. Their ef-forts, not wholly successful, are satirized in a keen, but yet not unkindly spirit. The principal female charac-ter is a woman lawyer, and makes her first appearance in court as counsel for her own daughter, whom she has forced to bring her sult for divorce. The scenes in the court room, where she meets in the person of the judge an old admirer, are convulsively funny.

There is no record of a more pro-nounced success, referring to comedy drawns, than that achieved by "Fritz in a Madhous," which can rightfully boast of a most cordial endorsement boast of a most cordial endorsement from every dramatic critic throughout the country. "Frits in a Madhouse" scores a positive triumph, and it is therefore pleasing to chronicle the forthcoming arrival of the frisky little chap who will disport himself and otherwise make merriment at the Opera House Wednesday evening, January 3. PRUSSIAN ARMY FLAGS

Rededicated by Emperor William With Imposing Ceremonies-The Day Given Up to Receptions and Calls. BERLIN, Jan. 1-The day broke

dark, cold and foggy, with a drizzling rain, but the great ceremony of awakening the city was nevertheless per-formed successfully by the military bands and drum and fife corps of the whole garrison, marching at the quick whole garrient step from the castle to the Branden-burg gate and back, rousing the popu-lation with deafening echoes. The emperor and empress, as usual, were early about. The significant act of rededicating the flags of the Prussian army, which occurred in the forenoon, was a most solemn ceremony. His majesty with the four elder princes, walked briskly over from the castle to Rhumes Halle, "Hall of Glories." in whose interior court, in the presence of Germany's emperor and princes, the act took place. The flags were piled up act took place. The mags were placed up before an altar, specially erected, where the Protestant and Catholic army chaplains performed the dedicatory rites. The emperor spoke kindly to

years of age, who was present. The empress drove up in a coach and six, with the two youngest princes, Os-car and Joachim, and the little princes all of them witnessing the scene below from a window overlooking the court.

Field Marshal Blumenthal, eighty-six

The sign and countersign given out by the emperor was "Koonigsberg Ber-lin," symbolically typifying Prussia's rise during the century. The decree awarding each flag a ne

ornament clasp and ribbon went into effect forthwith this afternoon, each regiment marching with its flags thus decorated. A similar decree was published to-day, by the prince regent of Munich and other German rulers. It was noticed that during the reded-

ication the emperor addressed kindly words to Prince Frederick Leopold, who is here for a few days from his banishment in Cassel.

The emperor's address during the ex-ercises, was considered another deeply significant expression of his majesty's firm intention to maintain the empire in its integrity. The passage affirming the emperor's will to preserve Ger-many's unity and indivisibility, and where he said he would continue in spite of all hindrances to make the navy as powerful as the army, made a deep impression, and his remarks are this evening commented upon liberally in diplomatic circles.

During the afternoon hours, the emperor called upon the ministers and princes. The United States ambassador, A. J. White and Mrs. White being out calling themselves, the emperor failed to meet them personally at their residence on Senne-Strasse The American colony kept the day or

thodoxly. Pastor Diehl held a reception and Consul General Mason and Mrs. Mason and Mrs. Robins did the same. The rest of the Americans, together with all Berlin, were out calling all day.
Mr. White informed the correspond-

ent of the Associated Press that emperor at the Cercle, addressed him with particular kindness and at considerable length. His majesty expressed great satisfaction that the relations with the United States during the year 1899 were so greatly improved and that so many obstacles to a better understanding between the two nations had been removed. He said that he, with the rest of Germany, had been deeply and appreciatively touched at various passages in the President's message.

EXECUTIVE COMMITTEE Of the National Anti-Trust Confer-

ence Issues Statement. CHICAGO, Jan. 1 .- Members of the

executive committee of the National Anti-Trust Conference, to be held in Central Music Hall, February 12, held s short conference to-day at the Sher-man House. M. L. Lockwood, of Pennsylvania, chairman of the committee, afterward issued a statement, in which he said: Every day the anti-trust sentiment

throughout the country is becoming in-tensified, and everywhere the cry is going up 'What can be done to save the country from the oppression of the trusts? The mission of the conference is to answer this cry. To the political economists and statesmen of the con-ference, rather than to the politicians of the country, will the people look for utterance which will lead to their deliverance, "The axe should be laid to the root of

the tree of special privilege. The plan is to treat causes rather than effect, to strike at special privileges hardest and first. In government ownership only can rallway favoritism be prevented.

Government control under corporat ownership has proved order to destroy the trusts we must take from them the special advantages which have created them, and they will which have created them, and they will wither of their own weight, as they meet the energetic competitive capac-ity of the American people. "It is the plan to organize all who

are opposed to trusts with the view o state, county and school district that concentrated action which alon can prove effective."

COMPLETE REORGANIZATION

Of Military Commands in Cuba is Probable During This Month. General Wilson Has Been Ordered to Washington. WASHINGTON, D. C., Jan. 1 .- It is

probable that the present month will be marked by a complete reorganization of the military commands in Cuba The impression prevails that there is to be a heavy reduction in these commands, and it is intimated that the outcome will be the creation of two departments instead of the six which originally comprised Cuba, and the four into which the island is now divid-General Wilson, who commands the

combined departments of Matanzas and Santa Clara, has been ordered to Washington, and it is not the presen intention that he shall return to Cuba It is said that while here, he, with General Dayls, who is coming from Puerto Rico, and is due on the 5th at New York, will confer with the committee of Congress having to do with the creation of a new form of government for Puerto Rico and with legisla tion for Cuba during the time it shall remain under American control.

The combined department of Santiago and Puerto Principe is without a commander, although the duties of the post vacated by General Wilson, upon his promotion to the governor general ship are being temporarily discharged ship are being temporary discouraged by the senior colonel. Thus the entire Orient, as the eastern half of the is-land is called, is without a permanent commander. It is understood that the four departments in the Orient will be consolidated into one, and that a brigadler general will be named by Se tary Root, upon the recommendation of General Wood, to take command with headquarters at Santiago.

CHARLES ELIOT,

Of the British Embassy, Enighted by the Queen.

WASHINGTON, D. C., Jan. 1 .- The announcement that Mr. Charles Ellot, of the British embassy, has been among those receiving the queen's New Year's Order of St. Michael and St. George. was received with great interest in diplomatic circles here, as Mr. Eliot is well known and universally esteemed. When the Samoan difficulty reached a critical stage last summer, Mr. Eliot was designated as the British commissioner for Samoa, joining Baron Sternberg, of Germany, and Mr. Bartlett Tripp, of this country, in a trip to Samoa, which had the salutary effect of relieving the immediate trou ble and paving the way for the final adjustment of the Samoan controversy. Throughout the difficulty Mr. Ellot acted in such a way as to win not only the strong approval of his own government, but also the best wishes from the authorities in Washington, so that honor now conferred on him gratifying to state department officials well as to his associates of the diplomatic corps.
